Strategic Partner Group

Strategic Partner Group Prospectus

For Veterinary, Animal Health, and Equine Diagnostic Facilities

1. Overview

Strategic Partner Group (SPG) is a **global consortium and capital facilitation firm** connecting **veterinary hospitals, animal health organizations, equine centers, and diagnostic laboratories** with international investors and funding partners to expand, modernize, and diversify operations.

From advanced equine facilities to mixed-practice veterinary hospitals and animal research labs, SPG helps partners secure **$5 million to $200 million+** in funding for:

- Facility development and modernization
- Diagnostic and testing expansion (including PCR and genetic testing)
- Equipment financing and technology upgrades
- Cross-sector partnerships in human and animal health

“SPG empowers veterinary and equine institutions to lead the next era of integrated health — where animal science, biotechnology, and human diagnostics work together.”

---

2. Why Partner with SPG

Veterinary and equine sectors are rapidly evolving. Growing global demand for diagnostic accuracy, genetic tracking, and preventive health opens opportunities for innovation — but requires significant investment.
SPG brings **capital access**, **strategic partnerships**, and **international expertise** to help veterinary organizations grow sustainably.

Partner Benefits

- 🐴 *Expand Equine & Veterinary Infrastructure*: Funding for hospitals, stables, diagnostic centers, and breeding facilities.
- 💰 *Access Global Capital*: Equity, debt, and consortium financing up to $200 million+.

- 🧬 *Advanced Diagnostics*: Capital for PCR, genetic, or biosafety-level testing for animal and human health crossover.
- 🌎 *Partnership Ecosystem*: Connections with research universities, biotech innovators, and healthcare groups.
- 🏥 *Dual-Use Transition*: Guidance for facilities seeking to incorporate human diagnostic testing under regulatory compliance.

---

3. Core Services for Veterinary & Equine Partners

A. Capital Access & Investor Facilitation

- Funding from $5M – $200M+ for veterinary and equine expansions
- Access to private equity, venture funds, and institutional investors specializing in life sciences and animal health
- Structured financing for new clinics, diagnostic centers, and equine hospitals

B. Diagnostic & Research Expansion

- Support for PCR, molecular, and genetic testing labs
- Partnerships for zoonotic research and veterinary–human testing integration
- Co-development of bio-surveillance and public health programs involving equine testing

C. Strategic Partnerships & Consortium Building

- Joint ventures with hospitals, universities, and biotechnology firms
- Formation of animal health and equine investment consortiums under SPG's global umbrella
- Access to research grants and government-private collaboration models

D. Investment Packaging & Readiness

- Preparation of investor-ready documents, pro formas, and valuation models

- Structuring blended financing (equity + debt) suited for veterinary healthcare operations
- Guidance on compliance, certification, and operational governance

---

4. SPG Veterinary Engagement Framework

Stage	Partner Role	SPG Role	Outcome
Discovery	Identify expansion or funding goals	Evaluate readiness & strategic fit	Customized capital roadmap
Preparation	Provide operational and financial data	Develop investor-ready package	Investment prospectus completed
Introduction	Maintain facility relationship	Facilitate investor and partner introductions	Qualified funding match
Negotiation	Participate in strategic discussions	Manage transaction & compliance	Approved funding structure
Execution	Implement growth project	Support deployment & reporting	Expanded, funded facility

---

5. Target Partners

- Veterinary hospitals and animal clinics
- Equine research and training centers
- Breeding and rehabilitation facilities
- Large-animal and agricultural health systems
- Diagnostic and PCR testing laboratories
- Veterinary colleges and research institutions

---

6. The SPG Advantage

- 🌐 **Global Reach** — Investor network across North America, Europe, Africa, Asia, and Latin America
- 🏇 **Equine Sector Expertise** — Experience supporting capital projects in equine training, research, and healthcare
- 🧬 **Innovation Funding Access** — Investors focused on biotech and veterinary diagnostics
- ⚙️ **End-to-End Support** — From project structuring to investor introductions and closure
- 🌱 **Sustainability & Welfare Focus** — Alignment with ESG and animal-welfare investment mandates

---

7. Leadership

Sam Jacobs, President — International investment strategist with $500 million+ in structured capital projects in healthcare, biotech, and infrastructure.
Rick Reese, Founder and COO — 35 years' experience in business development, procurement, and alternative finance; leads SPG's veterinary, equine, and healthcare partnerships globally.

---

8. Engagement Pathway

1. Schedule an SPG Veterinary & Equine Division introduction call.
2. Present your facility or project overview.
3. SPG prepares a funding and investor strategy plan.
4. Investor introductions, negotiation, and deal execution.
5. Post-funding collaboration for monitoring and reporting.

Subject: Expand Your Veterinary or Equine Facility — Access $5M–$200M+ in Funding

Body:

Dear [Name],

I'd like to introduce **Strategic Partner Group (SPG)** — a global consortium that connects **veterinary hospitals, equine centers, and animal health facilities** with qualified investors and strategic partners worldwide.

SPG helps organizations secure **$5 million to $200 million+** in funding for:

- Facility expansion and modernization
- New PCR and genetic testing capabilities
- Equipment acquisition and infrastructure development
- Veterinary-to-human diagnostic collaboration projects
- Equine rehabilitation, research, and training programs

Our team provides end-to-end support — from investment packaging to investor introductions and transaction execution — helping your facility grow with confidence and global credibility.

Would you be open to a short discussion about how SPG can assist your veterinary or equine operation with expansion and funding?

Warm regards,
Sam Jacobs
